512 cell	74	175

Speedling Trays		
128 cell	15	36
200 cell	21	50

This chart is a general guide. These measurements are approximate; they will vary depending on the pot manufacturer and the grower's handling of the product.

*3.8 cubic foot bales are compressed at a 2:1 ratio and will yield approximately double their size when properly loosened.
